Except for band arrangement, no fields should be blank. NA=not applicable, ex. Measurer ID if the bird wasn't measured because it escaped. N should only be used in Y/N fields, ex. Molting?. NOT REC should be used for all other fields, when the data should have been recorded but wasn't, ex. Capture Time if it was forgotten.

Last 3 # of Band Number	**Species**	Head Length (mm)	**CP Width at Widest (mm) or NA**	**CP Depth (mm) or NA**	**BP Score (0-5)**	Bill Color (1-5)	Crown Width (1-5)	Crown Definition (1-5)	Whisker Line Width (1-5)	Whisker Line Def. (1-5)	Face Color (1-5)	Face Definition (1-5)	Breast Amount (1-5)	Breast Definition (1-5)	Flank Amount (1-5)	Flank Definition (1-5)	Back Color (1-5)	Back Streaking (1-5)	**Feather Samp.? P1,R1/6,B,or N?**	**Blood Sample? Y/N**	Molting? Y/N	Aux Marker Code (RFID#, VHF freq, or Nanotag#) or NA	Notes

Shaded fields required, or for genetic samples and photos, encouraged in 2018
